For paints / inks / plastic / Rubber industries Raw material available with us under self import / Manufacturing / Trading.

# **MATERIAL SAFETY DATA SHEET – ELVAX® 40W**

This SDS adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

#### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name	: ELVAX <sup>®</sup> 40W resin
MSDS Number	: 130000022269
Manufacturer	: DuPont 1007 Market Street Wilmington, DE 19898
Product Information	:1-800-441-7515 (outside the U.S. 1-302-774-1000)
Medical Emergency	:1-800-441-3637 (outside the U.S. 1-302-774-1139)
Transport Emergency	:CHEMTREC: 1-800-424-9300 (outside the U.S. 1-703-527-3887)

### SECTION 2. HAZARDS IDENTIFICATION

#### Potential Health Effects

Before using, read the product bulletin., Processing temperatures that exceed those described in Section 10 (Conditions to Avoid), may evolve fumes irritating the eyes, nose and throat., Exposure may result in reddening, tears and itching of the eyes and soreness in the nose and throat, together with coughing.

Skin Ethylene copolymer	: May irritate skin.
Vinyl acetate	: May cause skin irritation. May cause: Discomfort, itching, redness, or swelling.
Eyes	: Resin particles, like other inert materials, are mechanically irritating to eyes.
Inhalation Vinyl acetate	: May cause respiratory tract irritation.
Ingestion	: Is not considered a potential route of exposure.
Target Organs Vinyl acetate	: Respiratory Tract

ELVAX <sup>®</sup> 40W resin	
Version 3.0	
Revision Date 01/10/2012	Ref. 13000022269
Flash point	: 260 °C (500 °F) open cup Method : Cleveland open cup - COC
Fire and Explosion Hazard	: Material in pellet form may accumulate static charge when poured from one container to another.
Suitable extinguishing media	: Water, Foam, Dry chemical, Carbon dioxide (CO2)
Firefighting Instructions	: Wear self-contained breathing apparatus and protective suit. The solid polymer can only be burned with difficulty. Evacuate personnel and keep upwind of fire. Grounding and elimination of the static charge is recommended.
SECTION 6. ACCIDENTAL RELEA	
NOTE: Review FIRE FIGHTING	G MEASURES and HANDLING (PERSONNEL) sections before proceeding with
clean-up. Use appropriate PER	SONAL PROTECTIVE EQUIPMENT during clean-up.
Spill Cleanup	: Shovel or sweep up.
Accidental Release Measures	: Do not discharge to streams, ponds, lakes or sewers.
SECTION 7. HANDLING AND STOR	
Handling (Personnel)	: Before using, read the product bulletin.
Storage	: Store in a cool, dry place. Keep container closed to prevent contamination.
SECTION 8. EXPOSURE CONTRO	DLS/PERSONAL PROTECTION
Engineering controls	: Use sufficient ventilation to keep employee exposure below recommended limits. When hot processing this material, use local and/or general exhaust ventilation to maintain the concentration of vapors and fumes below exposure limits. Use static controls. Static charges can cause explosions in solvent and dust laden atmospheres. See Bulletin "Proper Use of Local Exhaust 3 / 9

ECTION 13. DISPOSAL CONS	IDERATIONS
Waste Disposal	: Preferred options for disposal are recycling, incineration with energy recovery, and landfill. The high fuel value of this product makes incineration very desirable for material that cannot be recycled. Treatment, storage, transportation, and disposal must be in accordance with applicable federal, state/provincial, and local regulations.

### **SECTION 16. OTHER INFORMATION**

- Restrictions for use
- Do not use DuPont materials in medical applications involving implantation in the human body or contact with internal body fluids or tissues unless the material has been provided from DuPont under a written contract that is consistent with DuPont policy regarding medical applications and expressly acknowledges the contemplated use. For further information, please contact your DuPont representative. You may also request a copy of the DuPont POLICY Regarding Medical Applications H-50103-3 and DuPont CAUTION Regarding Medical Applications H-50102-3.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Significant change from previous version is denoted with a double bar.
